Turning the page is not just about moving forward; it is about embracing change, setting new goals, and writing a story that reflects our dreams. As we turn over a new page, stepping into a new year of infinite possibilities, let us make this a year of purpose, progress and prosperity

## Value of the Month :

A new year dawns, its pages yet unwritten. As per the Annual Education Report of India, 98.1% of children in the age group of 6 to 14 year olds in India are enrolled in school and that is definitely great news. At the same time, hyper networking, hyper communication and hyper information have transformed us into tech zombies with attention span down to 8 seconds! This year, surround yourself with things that bring you happiness and fill you with inspiration. Find harmony in sport's rhythm, tranquility in yoga's stillness. Let health be your guiding star, dreams your compass and hard work the steady hand that guides your journey.
